

JACKSONVILLE, ILLINOIS, THURSDAY MORNING, APRIL 12, 1906.

**PROSPECTS ARE MUCH BRIGHTER****FALL OF ASHES FROM VE-SUVIUS NOT SO HEAVY.****Disquieting Day at Naples—People Alarmed at What Has Happened and Ready for Any Excess.**

Naples, April 11.—The whole Vesuvius district as far as Naples, Caserta and Castellamare is one vast Saharan desert. Reports to night from all sides state the fall of ashes was not so heavy as it has been for the last few days, and that the ashes are much finer, and from this it is argued prospects are much brighter. The blockade of local traffic continues, but service on main lines of railway has been re-established, although greatly disarranged by the indescribable confusion in the stations.

This has been a disquieting day in Naples. People, alarmed by what has happened, have deserted their shops and manufactories are nearly all closed. The crowds are in a temper for any excess. It would only require a spark to start a conflagration.

The arrival of King Victor Emmanuel and Queen Helga has done much to restore calm. Both royal palaces at Capri and San Ferdinando have been given up to refugees. Robert Underwood Johnson, associate editor of the Century Magazine, who has been an eye witness of events here the last few days, said tonight to the Associated Press:

"Each day it becomes more impossible to visit, even at a distance, the afflicted districts. Ashes have reached preposterous proportions, filter into everything, block trains, trams, automobiles, carriages and horses. Only soldiers seem to overcome the obstruction.

"Before the interruption I took a train for Torre Annunziata. On arriving at Torre Del Greco the heavens seemed to open and we were soon half buried in ashes and hot cinders. The train drew up in total darkness relieved only by lightning flashes. Thus we waited events. Soon the darkness took purple and yellow tinges, detonations became louder than the loudest thunder claps, and ashes burnt our eyes. It was a perfect picture of Dante's Inferno. The train could not proceed so thick were the ashes on the track and just at this point the train broke in half and the poor women fugitives, thinking they were about to lose their lives, began to chant litanies for the dead, giving a last weird touch to the infernal scene. Carriages came to our rescue and proposed to take us to the sea. We then found we were on a bridge, with the sea on one side and Torre Del Greco on the other hand. In the darkness we descended hand in hand, forming a human rope, and a false step would have meant death. The port was so choked with ashes that small boats could not navigate. Wearily we trudged back to the station, to find there were no prospects of another train. We had then been five hours in that plight, so seeing that heroic measures were necessary, with a companion, I trudged miles in two or three feet of ashes to Portici, where finally we found a cab which brought us to Naples."

**CONDITIONS NOT FAVORABLE.**

Conditions to night in the section affected by the eruption of Mount Vesuvius are greatly ameliorated. The fall of volcanic ash has diminished and scientists express the opinion the volcano has spent itself. Newspapers to night eulogize Director Maffei for his courage in returning to the ruined observatory on Vesuvius and sending from that place messages of encouragement and expressions of confidence that the volcano will soon quiet down. Theaters, cafes and places of amusement throughout the city have been closed and before all sacred images in the streets candles are kept burning, while smaller images are being carried about and in many cases being set down in the open air and surrounded by candles. Troops are engaged in clearing the roofs of buildings of the accumulation of sand and ashes which endanger the structures. Large glass covered galleries throughout the city, which are much frequented, have been ordered closed, lest the weight upon the roofs cause them to collapse.

The village of San Gennaro has been partially buried in sand and ashes and several houses have fallen in. At that place three persons were killed and more than twenty injured. At the road at Torre Del Greco three persons were found dead from suffocation. People who remain at Torre Annunziata are in danger of perishing from starvation, all the shops having been closed. Rations for 200 persons have been sent there. Warships ordered here have been doing effective service in the removal of refugees. Premier Sonnino reached here today by train from Rome, his journey having been greatly impeded. He had a conference immediately after his arrival with King Victor Emmanuel, with whom the premier discussed measures to be adopted to restore public confidence, maintain order, aid the refugees and repair the damage caused by the eruption.

The king has directed that the royal palace at San Fernando be opened for the

reception of wounded refugees. Fireman and an ambulance corps from Rome have been sent here to aid in the care of sufferers.

Two American girls, who had heedlessly ventured into the Vesuvius district, where abandonment of the train by which they were travelling caused them much discomfort and no little peril, were brought here today by the steamer St. John. They were delighted that their adventure had no more serious ending. Although the report that Sarno has been destroyed is denied, it is now officially admitted that Ottajano has been buried. The number killed there and in surrounding villages is not known, but 300 it is believed would be a low estimate. Even Capri, a small island off the coast of Campania, fifteen miles south of Naples, a favorite resort for tourists and artists, has been covered with ashes and has been abandoned by its foreign population, which included several Americans. The magnitude of the disaster is almost indescribable. Vesuvius has spread desolation and terror over an immense tract of country.

**RELIEF OF SUFFERERS.**

Washington, April 11.—The following official announcement was issued to night:

"The American National Red Cross announces it will receive and forward to the Italian Red Cross any contributions for the relief of sufferers from the disaster caused by the eruption of Mount Vesuvius in southern Italy."

The headquarters of the Red Cross are in Washington.

**NOT DESTROYED.**

Reports of destruction of two towns, Sarno and San Gennaro, the former having a population of more than 8,000 have proved to be without foundation. At Sarno 5,000 persons from nearby villages and farms have found refuge. Ottajano, where many lives were lost on Monday, is now practically buried. One estimate made of the damage is \$20,000,000 and 5,000 persons are rendered homeless. Everywhere in Naples and Castellammare and in lesser towns nearby out of the danger zone, are beggarly refugees who only a few days ago were prosperous and happy.

**DEFENDS GERMANY****Did Not Instigate Russia to Call Second Hague Conference**

Cologne, April 11.—The Gazette to day prints an inspired dispatch from Berlin which denies Germany instigated Russia to call the second Hague conference for June in order to compete with and detract from the importance of the Pan-American congress. The dispatch adds: "Germany knew nothing of Emperor Nicholas' intention to call a meeting of The Hague congress before the invitation was received several days ago." The dispatch further combats the view that Germany has taken a special interest in The Hague congress because she may there oppose the so-called Calvo doctrine which denies the right of one state to interfere to collect its subjects' claims against a foreign state so long as courts of the latter offer a prospect of unprejudiced adjudication. The dispatch further states this view has been disseminated in South America in order to create suspicion against Germany, and that its falsity alone is evident since Russia, alone and unadvised, called The Hague congress, Germany having nothing whatever to do with the issuance of the call.

**MAYOR IS ATTACKED.**

St. Louis, Mo., April 11.—Mayor Luker was attacked and slightly injured by a trio of employees of the Illinois Traction company, following an exchange of angry words with one of them. Tuesday afternoon Luker rebuked B. E. Hannaford, local auditor, for replying to a lady in an offensive way. After the fight, Luker had his assailants arrested and taken before a justice of the peace, where bond was furnished for their appearance. Wednesday afternoon, on the return of the men to their stations, the quarrel was taken up by two sympathizers of Luker and a fight ensued. Several stories were sent out that a riot took place, but the reports cannot be confirmed. If a riot took place the local authorities have been misled.

**AMBASSADOR STORER.**

Vienna, April 11.—Bellamy Storer, American ambassador to Vienna, will be received in audience by Emperor Francis Joseph tomorrow, on which occasion he will present his letters of recall.

**CONFERENCE POSTPONED.**

London, April 11.—The Standard to day learns that The Hague conference has been postponed to a date not earlier than October.

**CROUP QUICKLY CURED.**

A few doses of Chamberlain's Cough Remedy will bring surprising results when a child shows symptoms of croup. There is no cause for alarm when this medicine is in the house as it rarely takes more than three or four doses to bring about a complete cure. It has never failed even in the most severe and dangerous cases, and no home where there are small children can afford to be without it. For sale by all leading druggists.

**DOWIE'S BATTLE FOR ZION CITY****CASE WILL BE TAKEN INTO COURT.****Voliva and Others Charged with Entering Conspiracy to Deprive Former First Apostle of Property Rights.**

Chicago, April 11.—Dr. John Alexander Dowie and his counselors will to-morrow file the first gun in the battle to regain the \$20,000,000 said to be involved in contest of Zion City, when they will file in the courts a bill in chancery, petitioning that the transfer made between Deacon Granger, Overseer James Dowie and General Overseer Voliva, depriving Dowie, be set aside. Grounds upon which the petition will be based will be that Voliva, Granger and Mrs. Dowie entered into a conspiracy to fraudulently and illegally despoil the former "first apostle" of property which he rightfully claims as his own. The court will also be asked to enjoin Voliva from in any way handling the estate. What other legal steps may be taken have not yet been decided upon.

To day Attorney Wetten, retained by Dowie and his counselors, went to Zion City and there had a consultation with General Overseer Voliva, Deacon Granger and Judge Barnes, head of the law department of Zion City. It was said that purpose of Wetten's trip to Zion was to gain enlightenment as to existing financial conditions at the place.

After the conference a mass meeting was held in Shiloh tabernacle, in which ways and means of carrying on the battle against Dowie were discussed by Voliva and his followers.

The legal steps being taken by Dowie are only preliminary, for Dowie and his entire party intend to descend upon Zion City at no very distant date. This statement was emphatically made to day by Deacon eters, who, together with Deacon Lewis, has been a constant attendant and advisor of Dowie since he left Mexico on his trip north. The party, however, are proceeding cautiously and declare they will make no move which would in the slightest degree prejudice their interests.

A Dowie lost a loyal adherent to day in the person of Miss Elizabeth McLennan, who has accompanied him as a nurse on the journey to regain his health. "The woman went to Zion City to day after she had a heated interview with Dowie, in which she defiantly told him she could no longer remain as a member of his party, because she believed Mrs. Dowie and Gladstone Dowie have been shamefully maligned by the 'first apostle' in his speech delivered from the car steps in St. Louis two nights ago. On her arrival at Zion City she immediately sought out Mrs. Dowie and Gladstone Dowie and tendered them her assistance and sympathy.

Referring to a threat which, it is asserted, Gladstone Dowie made intimating that if his father did not cease his remarks upon Mrs. Dowie he would reveal certain things said to have occurred in 1877, Dowie said he remembered nothing that occurred in 1877 which should cause him to be afraid. "There is one thing, however," said Dowie, "that happened in 1877 which I greatly regret, and that is that the Lord gave unto me a son, whom I named Gladstone Dowie." He said: "Now, I want to say that unless this young man ceases making these threats and insinuations I will be forced to reveal his true character to the world. And I assure you that it will be a story of degeneracy and beastliness that will be shocking."

**CONCILIATION TALK.**

Chicago, April 11.—At the conclusion of a day of conference between representatives of the Christian Catholic church, settlement was made at midnight to night and the whole controversy will probably be settled by conciliation. Both sides of the dispute, according to Attorney Wetten, Dowie's legal representative, are anxious for an amicable adjustment of the dispute. This announcement was made by Wetten after his return to Chicago to night from Zion City, where he went this afternoon and was in conference with those in control there. The statement was made by Wetten immediately after a conference with Dowie and his counselors which lasted until midnight. Earlier in the evening a statement had been given out from Dowie's apartments that the whole matter would be thrown into the courts to-morrow for settlement, but after the consultation with Wetten, there seemed to be a sudden change in the warlike attitude and it was announced that both sides probably will be willing to accept concessions and that there will be no necessity to resort to courts.

**BIG FIRE AT DIVERNON.**

Springfield, April 11.—Early this morning the opera house at Divernon, owned by Reich Bros. of this city, was completely destroyed by fire, entailing a loss of \$8,000. Under the theatre was a saloon and a restaurant. The saloon was unoccupied, but the restaurant was conducted by Warren & Edwards, whose loss will be \$400. The origin of the fire is unknown.

**GREENE-GAYNOR CASE.**

Savannah, Ga., April 11.—Judge Emory Speer at 12 o'clock to night concluded his charge to the Greene-Gaynor jury and the fate of the contractors charged by the government with frauds amounting to more than \$1,500,000 now rests with the jury.

**PRIMARY BILL****Measure Prepared by Attorney General Introduced in Senate and House.**

Springfield, April 11.—The new primary election bill prepared by Attorney General Stead, providing for nominations at primary elections of 25 per cent of the total vote, was introduced in the house to day and referred to a committee.

The bill introduced in the senate was changed before being introduced to provide the majority requirement. It was read for the first time and will be put on second next Wednesday. It was discussed for two hours in the senate, and unexpectedly strong opposition was shown to many features.

Democratic members of the house censured to day and resolved to introduce a bill providing for direct primary nominations for all officers, except possibly judicial candidates, and to give it united support as a party measure.

Both houses will adjourn to-morrow until next Wednesday.

Springfield, April 11. (Special).—Judging by the sentiments expressed at the session of the senate this afternoon that body is in favor of a nomination by direct primary—that is, by a plurality vote of the people. The senate was in session about two hours and a half and a dozen speeches were made during that time, all of them, with one exception, being in favor of a plurality nomination. The Democrats in the senate are understood to be unanimously in favor of that kind of a primary, among them being Acton of Vermilion county, who stated that this method had been in vogue for several years among the Republicans of Vermilion county and had worked very satisfactorily. The senate adjourned until to-morrow morning, but all the senators, with one or two exceptions, went home to night, so that body will not really have a session until next Wednesday morning.

Senator Humphrey, of Chicago, who is opposed to any primary law at all, got up a petition among the senators this morning agreeing not to hold a session this afternoon. Senator Berry pleaded with him not to do this, but he was obstinate. Humphrey, however, failed to secure the requisite number of signatures.

The Stead bill was introduced in both houses when they met this afternoon. The house did not discuss the law, but after the session the Democratic members of the house censured. Many prominent Republicans in the house, both in Cook county and in the country, are in favor of the same measure which the Democrats advocate, namely: nomination by a plurality vote. It is believed the sentiment of the house is overwhelmingly in favor of this way of nominating.

The house will not hold any session in fact until next Wednesday, owing to the municipal election next Tuesday. The bill for a majority primary, which it was stated Representative Lewis Tanner would introduce in the house, will not be introduced. The Democrats of the house decided in their caucus to support any direct primary bill—that is, for a plurality nomination.

**CASTRO HAS RETIRED.**

New York, April 11.—Castro has retired temporarily from the presidency of Venezuela, and General Gomez, first vice president, is the present executive head. This information was contained in an official cable dispatch which was received to day by the Venezuelan consul general in this city. The change took place Monday last when Castro issued a proclamation in which he announced that should his temporary separation bring harmony and good will to the country he would willingly make his retirement permanent if necessary. The dispatch also says peace is assured in Venezuela and that international questions will be either amicably arranged or arbitrated.

**WILL PAY IN FULL.**

Peoria, April 11.—The Peoria National bank, which was placed in the hands of a receiver at the time of the Dougherty scandal, will pay 100 cents on the dollar. Dougherty was president of the bank and its affairs were in such shape that a receivership was the only means by which stockholders and depositors could be protected. Senator O. F. Berry was made receiver. "I have already paid out 60 per cent of the claims and in a short time will pay out 40 more," said he. "The bank will pay every cent of indebtedness and in addition the expenses of a receiver."

**CUMBERLAND DERBY.**

Nashville, Tenn., April 11.—The Cumberland derby, 1½ miles, with \$2,000 added, was the feature event of the opening day at Cumberland park, and Fred Cook's boy filly, Minnie Adams, at even money, was an easy winner. Debar, 7 to 1, was second two lengths back, and Holloman, 16 to 1, was third. Time—1:55.

**GRENE-GAYNOR CASE.**

Savannah, Ga., April 11.—Judge Emory Speer at 12 o'clock to night concluded his charge to the Greene-Gaynor jury and the fate of the contractors charged by the government with frauds amounting to more than \$1,500,000 now rests with the jury.

**REPUBLICANS OF INDIANA****MEET TO NOMINATE STATE OFFICERS.****Will Refuse to Adopt "House-Cleaning" Policy of Governor—Candidates Will Be Chosen To Day.**

Indianapolis, Ind., April 11.—The Republican state convention to nominate state officers, except candidates for governor, lieutenant governor and reporter of the supreme court, held a preliminary session to day and heard addresses by Representative Abraham L. Brick, temporary chairman, Senators Beveridge and Hanft, and Governor Hanley.

The convention adjourned until to-morrow morning, when the committee on rules, organization and resolutions will report and nominations will follow. The resolutions committee this afternoon, after a session lasting over three hours, modified the plank endorsing the administration of Governor Hanley, which had been agreed upon by party leaders and submitted to the committee. The plank as adopted by the committee endorses the present state administration in its stand for the enactment of laws and for its promotion of high standards in the administration of public affairs.

The committee refused to endorse the "house-cleaning policy of the governor." This sentence referred to the governor's demanding the resignations of Secretary of State Stokes and State Auditor Sherrick. Sherrick is now in the penitentiary. With this change the committee accepted the resolutions offered by party leaders, with the exception of endorsement of the railroad commission.

**VOTE ON RATE BILL****Agreement May Be Reached This Week—Discussion in House.**

Washington, April 11.—In the senate to day, Aldrich expressed the opinion that the end of general debate on the railroad rate bill would become apparent before the end of the present week and then an agreement upon the day for voting could be reached.

The statement was made in response to a request by Tillman for such an agreement. There was no other discussion of the rate bill during the day owing to the fact no senator was prepared to speak. It was announced that Spooner would reply to-morrow to Bailey's speech of yesterday. The session was almost entirely devoted to consideration of the conference report on the bill providing for final settlement of affairs of the five civilized tribes of Indians.

**HOUSE.**

After nearly ten days of general debate with the postoffice appropriation bill as a vehicle for the discussion of a wide range of subjects, the house to day reached consideration of the bill itself, an hour having been given to reading the measure. There were a number of lively debates during the day, but little progress was made with the bill under the five minute rule.

**CHAPIN.**

A. R. Tucker and wife represented Chapin at Jacksonville Monday. Messrs. Howlow and Croven were Monday shoppers at Jacksonville. Samuel Lovett, an old soldier, died Monday morning at his residence in the north part of town.

The play "Tony the Convict" brought out a large crowd Friday evening. The proceeds were turned over to the ball team. John Anderson after a few days' visit at Berlin, N. D., has returned home. The first big ball game of the season will be between the Keokuk, Iowa, state league team and Chapin. The game will be called April 23.

Miss Edna Rice who has been visiting relatives in Winchester has returned home. Fred Houston of Jacksonville has accepted a position at the Hotel Scott until the ball season opens up.

Henry Edinbrook was a business caller at Alexander the first of the week. Messrs. Dresser and Hugh Sargent of Springfield were Chapin visitors last Sunday.

Miss Cora Cooper, one of Concord's popular young ladies, was over visiting friends Saturday.

Quite a number of candidates were through here recently in their rigs and some "wags" rises to remark such an aggregation ought to dry the roads.

The ball season Sunday broke some of the windows in Mr. E. church here. Every one should be present.

**REPLY OF MINERS****Ready to be Presented to Anthracite Mine Owners at Joint Session To Day.**

New York, April 11.—After having the counter-arbitration plan of the anthracite operators under consideration nearly all day the general scale committee of the anthracite miners' committee of the hard coal miners, completed the draft of their reply and will present it to the committee of mine owners at the joint session to be held here to-morrow. The strictest secrecy surrounded the work of the committee. It is believed the miners have decided to accept the operators' offer that the anthracite strike commission take up the dispute, but will ask that the tribunal be permitted to consider the original demands with certain important modifications.

The concessions said to have been decided upon are that, instead of agreement being entered into between the operators and United Mine Workers of America, it be made with Anthracite Mine Workers; that the check-off system be limited to wage workers who agree to an assessment to defray expenses incurred in carrying out the miners' part of the agreement, instead of all mine workers—union and non-union—being compelled to contribute; and that the duration of the agreement be left to the commission. The miners, in their arbitration plan, asked for a two year agreement and the operators, in their counter proposition, wanted one for three years. If this proposition is submitted by the miners and accepted, it would leave the commission free to take up the demands for increase in wages, an eight hour day, uniform pay for all classes of employment paid by the day or month, reconstruction of the conciliation board and a number of minor grievances. The operators want to limit the inquiry to wages and a method for adjustment of complaints.

The general scale committee of the miners held two sessions to day at which members discussed the operators' plan. Judicial committee men favored complete rejection of the operators' proposal, outside of that portion providing that the anthracite strike commission be arbitrators. They feared the operators might take advantage of a clause in the latter's proposition which gives them the privilege of asking the arbitrators to reduce wages. All committee members favored the offer of the strike commission, to arbitrate differences instead of the board of conciliation.

**SIGNED SCALE.**

Athens, Ohio, April 11.—Ten coal companies and mine operators in the Hooking Valley district to day signed the 1903 scale and it is expected they will resume operations at once. The action of the miners' convention in calling out the operators, firemen and pumpmen has been resented.

**EXPULSION.**

St. Louis, April 11.—The Deatur and Middleton & Tallula Coal companies have been expelled by the Illinois Operators' association because they signed the scale demanded by the miners.

Kansas City, April 11.—The Southwest Operators' association to day expelled six of its members in Missouri and Kansas who have signed the miners' scale.

**IOWA MINERS.**

Des Moines, April 11.—The Iowa mine operators and miners made some progress in the scale conference to day, an agreement being reached for the first Iowa district for all labor except top. The agreement restores the scale of 1903. The matter of top laborers is still undecided. They were not reduced two years ago, but demand is made for an increase of 5.56 per cent for them, to which the operators object. The operators to day withdrew the resolution providing for payment of penalty to them in case of local shut-downs, but they served notice they would renew it when the scale is adjusted. To day's progress is taken to indicate that there will be a settlement.

**POSITION FOR CERVIERA.**

Madrid, April 11.—Vice Admiral Cervera, who commanded the Spanish fleet which was destroyed off Santiago de Cuba, July 3, 1898, by the American fleet, has been appointed naval commander at Ferrol, a Spanish naval station on the Bay of Biscay.

**PARDON REFUSED.**

Washington, April 11.—President Roosevelt to day refused to pardon Dr. A. W. Malchow, formerly professor medicine at Hamline university, St. Paul, sentenced to two years in prison for sending obscene literature through the mails.

**WILL NOT CLOSE FRIDAY.**

New York, April 11.—The governors of the New York stock exchange to day voted not to close the exchange on Friday. This is the second time in the history of the institution that it has failed to close on Good Friday, the previous occasion being in 1898 during the Spanish-American war.

It enriches the blood, strengthens the nerves, makes every organ of the body strong and healthy. A great spring tonic. Hollister's Rocky Mountain Tea. 35 cents. Tea or Tablets. Armstrong's Drug Store.

**COAL TRAFFIC INVESTIGATION****RATES FIXED BY AN ASSOCIATION.****Admission Drawn from Coal Carrying Railroad Officials at Hearing of Interstate Commerce Commission.**

Philadelphia, Pa., April 11.—That rates are fixed by a "traffic association," composed of various coal carrying railroads, was an admission drawn to day from railroad officials at the final hearing in the interstate commerce commission's investigation into alleged abuses of the coal trade. Through Joseph G. Seales, coal traffic manager of the Pennsylvania railroad, also chairman of the all-rail traffic association, it was learned that this organization not only fixes the percentages of tonnage allotted each railroad, but also establishes the rate. Caused for the commission produced the minutes of a meeting of the Thilwater Bituminous Steam Coal Traffic association, held on Sept. 19, 1899. The records showed resolutions offered by the Norfolk & Western company permitting that company and the Chesapeake & Ohio railroad to carry bituminous coal at the rate of \$1.25 per ton were voted down, and that the rate was fixed at \$1.40 a ton on Seales' resolution. Seales admitted there has been an agreement as to tonnage allowed each road, and that if one road shipped more and another less, settlement was made. He said there had been no settlements since 1899.

In explaining the establishment of rates, Seales stated each company fixed its price, which was later agreed to by the members of the association. If any company should reduce the rate he paid it would demoralize the general situation. Seales denied there was an understanding to maintain rates between all-rail and all-water associations for the purpose of preventing competition.

It was shown by records of the "traffic association" that in 1899 the rate on soft coal to New York and New England points was \$1.55, except as to the Boston & Maine connection, which had a \$1.45 rate. In 1900 these rates were raised to \$1.85 and \$1.75 respectively. Since then there has been no change. Seales denied also that the purpose of these rates was to stop competition.

**ITALIANS RETURNING HOME.**

Springfield, April 11.—The foreign element among the miners who have been working in this vicinity evidently has taken a serious view of the strike situation as, it now stands. Every day the passenger agents of the railroads running into Springfield are called upon by several of these foreigners who desire transportation through to Italy and other places.

Last Saturday twenty-six Italians who had been at work in the mines at Liverpool came to this city and secured passage over the Illinois Central for New York, where they intended to take the liner for Italy. They were followed both on Monday and Tuesday by almost equally as large parties. They came prepared for the journey, having arranged their belongings in bundles which they carried on their backs or lugged between two of the heaviest members of the party.

**PROBABLE CHANCELLOR.**

Berlin, April 11.—Herr von Radowitz, German ambassador to Madrid, now on his way to Berlin, is spoken of in the official world as the probable acting chancellor during the long holiday which it seems will be necessary to complete Von Buelow's recovery. Although all of Professor Rönne's reports concerning the progress of the chancellor are phrased most hopefully, yet the latter's condition is such that a three months' rest appears essential to his restoration to health. It is regarded as necessary that Buelow shall be represented during this period.

**ATTACKS MORMON CHURCH.**

Independence, Mo., April 11.—L. M. Smith, a son of President Joseph Smith of the reorganized church of Latter Day Saints, at a conference of that church to day in a speech, made an attack upon the Mormon church of Utah and declared Senator Smoot should be removed from his position as senator.

**BILLIARD CONTEST.**

New York, April 11.—By a score of 500 to 382, Willie Hoppe, who holds the world's championship title for 184 billiards, defeated Albert G. Cutler of Boston in the fifth game of the world's 184 championship tournament to night.

**REPUBLICAN LEAGUE.**

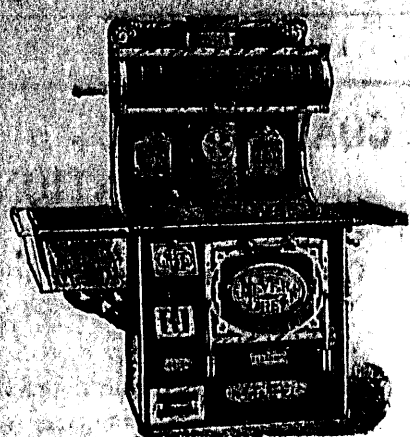

Philadelphia, Pa., April 11.—President J. Hampton Moore, of the National Republican league, has issued a call for the biennial convention to be held in Philadelphia June 17. The occasion will mark the golden jubilee of the Republican party, being the fiftieth anniversary of the first national Republican convention.

**DEATHS.**

New York, April 11.—James A. Bailey, the showman, formerly of Banum & Bailey, died at his home in Mt. Vernon to day of erysipelas.

## Health for Every Child

If every mother knew the sterling worth of Kickapoo Worm Killer, there would be few sickly children. Mrs. Josie Irwin, of 1074 Columbia Street, Chicago, Chaplain Ladies' Auxiliary of Brotherhood of Railway Trainmen, praises this wonderful remedy for its remarkable cure of her daughter. She writes:

"My daughter, Louise, complained so frequently of pains in the stomach, and grew so pale and thin, that I thought she had some indigestion. She cried and tossed about so much at night that I became alarmed. I finally gave her Kickapoo Worm Killer, thinking she might have worms, and I soon found this to be the real trouble. For three days she passed worms, over forty in all, from three inches to eighteen inches long. The medicine acted promptly and still so gently that she had no trouble in getting rid of them. Her health improved quickly. She now seems an altogether different child. She has had no ache nor pain since. I have told a number of mothers about Kickapoo Worm Killer, for I know by experience its great value."

## KICKAPOO WORM KILLER

has brought happiness and sunshine into thousands of homes. It is a candy tablet remedy that children like to take. Not only does it safely and permanently remove all worms, but it tones and sweetens the little one's system, whether there are worms or not. If your child is ailing—if it picks at the food, grinds the teeth, has thin, pale cheeks, with dark rings under the eyes, is peevish and irritable, is troubled with bed-wetting, restlessness at night, nervousness, flicks appetite—you can with positive certainty restore it to robust health by Kickapoo Worm Killer. It is truly the "children's friend." 25 cents a box—druggists or by mail. If perplexed about your child's health, write us and one of our physicians will give you advice without charge. Samples of the tablets free.

## SOURCE OF CITY'S MILK

Conditions Necessary to Secure Clean, Safe, Palatable Milk and Milk Worth the Money.

Editor Daily Journal: What is more delicious than good cold milk, rich and of this flavor? And what is more delicious food for young or old? We do not tire of it and we do not get enough of it. And, real cream—pure and grateful to the taste—what a flavor and substance it adds to the coffee and dessert! Everybody uses milk in one way or another. The very life of children depends upon it. Everybody is affected by the manner in which milk is produced and furnished to them. And yet, how little pains are taken to inquire into these conditions and see that they are right. Large sums of money are spent to get good and pure water for the public; but in most cities little or nothing is paid out to regulate the milk supply. This is not because such inquiry and regulation is not needed; it is not because vast improvement isn't within easy reach; but just because the milk conditions and their relation to good eating and public health are not generally understood.

**PLenty OF POOR MILK.**  
No other food is more healthful or economical than pure milk, and none is more filthy or dangerous to health than milk when carelessly handled. Nine years' experience in conducting a sanitary dairy at the University of Illinois enables the writer to speak positively of what can be done and what ought to be done to supply good milk. Careful investigations have shown that there is being exchanged for good money in this state plenty of dirty milk—milk of poor flavor, adulterated milk and milk so low in butter fat that it isn't worth the price. There is also some dangerous milk. Here are a few hints about the requisites of good milk:

**WHAT SEVENTY-FIVE TESTS REVEALED.**

The cow's udder must be clean before milking, as most of the filth in milk comes from soiled udders. This was proven by seventy-five careful comparisons at the experiment station. It was found that eighteen times as much dirt fell from soiled udders as from the same udders after they were washed. With udders apparently clean, three and a half times, and with muddy udders, ninety times as much dirt fell from the unwashed udders.

Hundreds of tests have also shown that three times as many bacteria develop in the milk if the udders are not washed, and it is bacteria that sour the milk and otherwise destroy its flavor.

**COLD MILK KEEPS BETTER.**  
After milking the milk should be immediately removed from the stable and cooled to below 60 degrees. At this temperature, bacteria develop slowly, and at 40 degrees their growth is almost entirely stopped.

**DELIVER IN STEAMED BOTTLES.**  
Milk measured out at the consumer's door contains the dust and germs of the streets. All milk should be bottled at the dairy after the bottles have been thoroughly washed and sterilized with steam. Some dairymen bottle milk in the wagon on the route, taking bottles collected from houses just visited. This practice is dangerous, as it may convey disease from house to house, and it should be absolutely prohibited.

**CLEANING UTENSILS.**  
Dairy utensils should have smooth surfaces, all seams being flushed smooth with solder, so they can be readily cleaned. As soon as the tin is worn off in places inside the vessel, should be discarded, as it cannot be cleaned in that condition. All utensils should be washed as soon as possible after using—first rinsed in lukewarm water to remove the milk, then washed in hot water and soap, and scalded with boiling water or steam.

**THE BARN YARD.**  
No one thing is of more importance than keeping the cows out of the mud and filth of a dirty barnyard. The yards should be covered six inches deep with gravel or cinders, or otherwise paved to form a hard surface. No pig pen should be allowed nearer than 200 feet, as the odors are readily absorbed by the milk. Methods must be adopted for keeping the cows clean in barn or stall.

**LIGHT AND VENTILATION.**  
Two things almost universally lacking or inadequately supplied in dairy barns are light and pure air. These are easily obtained and absolutely essential to the best health of the herd and the economic production of clean milk.

The walls and ceiling of the barn should be tight, excluding all dust and chaff, and smooth for whitewashing and to prevent collection of dust.

**NOTICE TO CONTRACTORS.**

Jacksonville, Ill., April 10, 1906. Sealed proposals will be received by the board of county commissioners of Morgan county, Illinois, up to 2 o'clock p. m. of April 21, 1906 and not thereafter, at the commissioners' room in the Morgan county court house. Said proposals will then and there be publicly opened.

Plans and specifications are on file in the office of Charles W. Brown, at room 8, Opera House block, Jacksonville, Illinois.

Approximately the work will consist of furnishing the labor and cement for laying 420 feet of 10 inch pipe, 2,000 feet of 8 inch pipe and 200 feet of six inch pipe, constructing a concrete abutment at the outfall and one manhole, with the necessary tees, Ys and bends, etc.

Each proposal must be accompanied by a certified check on a responsible bank, payable to the order of the county treasurer for a sum equal to ten per cent of the entire bid.

The contractor will be paid in cash on completion and acceptance of his work.

The successful bidder will be required to furnish an approved bond in the sum of Fifteen Hundred (\$1500) Dollars for the performance of his contract. The board of commissioners reserves the right to reject any or all bids or to award the contract to the bidder whom they deem the lowest and best bidder.

## SO SOOTHING

Its Influence Has Been Felt by Many Jacksonville Readers.

The soothing influence of relief. After suffering from itching piles, from eczema or any itchininess of the skin.

Makes one feel grateful to the remedy. Doan's Ointment has soothed hundreds. Here's what one Jacksonville citizen says:

Mrs. C. Hanes, of 278 East College avenue, says: "It is a pleasure to recommend a remedy of such great value as Doan's Ointment. From experience I pronounce it a specific for irritation of the skin. I used it as a healing medium and as a soothing I never found its equal. It happened to see a notice in our daily papers that this ointment was for sale next day going to Dr. H. Lee Hatcher's drug store I procured a box. The first two or three applications benefited me and long before I had used the entire box the irritation ceased."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—DOAN'S—and take no other.

**INJURY TO EYE.**

Harry Moran, a tinner in the employ of Oscar Faugust, was painfully injured by hot solder flying into his eye while doing some work at the West State street store of Ehnie Bros. Wednesday morning. He was soldering one of the block tin pipes of the soda fountain, when the soldering iron suddenly went through the pipe, letting the hot metal into the wet interior. The moisture of the pipe caused the molten solder to fly up into Moran's face, and one eye was seriously affected. He was taken to Dr. Adams, who gave the proper attention.

**FASHIONS IN SHOES.**

Last summer the unexpected demand for white shoes for ladies utterly swamped the manufacturers so that retail dealers were entirely unable to get enough goods for their trade. Many ladies accepted shoes that did not fit and others were sorely disappointed because they could get none. This year the same material is to be used for ladies' summer footwear and in addition there will be all manner of dyes so that shoes can be colored to match the dresses of the fair wearers. In anticipation of this local dealers have ordered quantities of shoes and coloring matter and hope to be able to supply their trade.

LOGAN HAY.

Springfield, Ill.

Rev. Madison Peters says that too many society women of New York both drink and smoke and some of them get quite drunk. It is to be feared that these pernicious habits are growing in our big cities. A woman with her breath tainted with tobacco smoke is bad enough, but a woman drunk is something awful to contemplate.

The individual woman taken separately, may be a capable and useful member of society, says a writer, but to find seven or eight who will act intelligently in concert seems well nigh impossible and the masculine verdict that a woman's committee generally resolves itself into talk, temper, tears and ten, although brutal, is not after all, so very wide of the mark.

Up to the present time \$50,000 has been sent from the United States to Japan to help furnish food for the famine-stricken people. A nation that can prosecute a stupendous war as was waged only last year in Manchuria, ought to be able to export from its borders the wolf of starvation in times of peace. Under present conditions in the United States famine could not long prevail in any county, town, city, hamlet or village in any of the states of the union.

There is much all around us that is worth rejoicing over. Take on the farm, just at this season of the year, when nature is beginning to think what she can do to make this old world beautiful once more. Suppose we just sit down the first thing we do, and wipe away all the cobwebs out of our hearts. Eat a mess of greens, too. Take horseradish if you can't get anything else. Boil it up good and tender and eat it hot with a bit of vinegar on it. It will stir up the liver first rate, and make the world look better.

No one who takes note of the free and easy manners of the girls of the period, misses still in short dresses, or their first long frocks, half-fellow-well-met with all the boys of their acquaintance, can not wonder that the lads so treat them in turn the same way. That it never occurs to them that gentleness and courtesy should be the first attributes of every man in his dealings with women. There never was, nor will be, any better definition of the word "gentleman" than the old one, which, if well worn, has also worn well: "A gentleman is a woman and as manly as a man."

## DEATH RECORD

## D'CASTRO.

Mrs. Mary De Castro died at her home, 1306 Elm street, Wednesday morning at 10:30 o'clock, aged about 80 years. She was the widow of Domingos De Castro, who died in 1880, and had resided in this city since 1851.

Mrs. De Castro was the mother of ten children, four of whom survive: Mrs. J. R. Andrews, Paul De Castro and John De Castro, of this city, and James De Castro, of De Soto, Mo. She was a faithful member of the Jordan Street Presbyterian church.

Funeral announcement will be made later.

## BROWN.

The venerable John A. Brown died recently at the home of his son in Slater, Mo. He was a pioneer engineer on the Alton when it was only the Tomica & Petersburg and he and Joel Baker were pretty much the entire mechanical force in the motive power department. He is well remembered by many who knew him when a resident of this city with his home on East College avenue.

## HOPPER.

Miss Jennie Dee Hopper entered into rest Wednesday morning at 8 o'clock at the home of her parents, Mr. and Mrs. Phillip Hopper, near Sinclair, aged 22 years, 11 months and 28 days. Death resulted from tuberculosis, of which she had been afflicted for about two years. She had tried the climate of Texas since February, but failed to find the relief expected, and returned home a week ago, where she continued to grow worse until death ensued. She was a faithful member of the Hebrew church and was active in church work. Her parents, three sisters, Mrs. Howard Cully, Bessie and Gladys, and a brother, Robert, survive.

The funeral will be conducted from Hebrew church Friday morning at 11 o'clock and interment will be in Hebrew cemetery.

## FUNERALS

## D'CASTRO.

The funeral of Benjamin DeSilva was conducted from the residence of his brother, Frank DeSilva, at 919 North Church street, Wednesday afternoon at 2:30 o'clock, in charge of Rev. W. H. Musgrave, of Brooklyn church. The music was in charge of Mrs. Jennie DeFreitas, Mrs. J. A. Scott, Edward Nunes and W. W. Gilliam, and the flowers were cared for by members of the R. N. A. A. Mrs. J. N. Vasconcellos, Mrs. Anna Kennedy, Mrs. Joseph Bento and Mrs. J. N. Joaquin. There were many handsome pieces, including a large pillow, long streamers of white and pink cut flowers and a Woodman axe.

The interment was in Jacksonville cemetery. At the grave the ritual of the Woodmen for the burial of the dead was observed by members of Camp 912, who attended the services in a body. John N. Joaquin, V. C., and E. M. Vasconcellos, W. A., were in charge. The bearers were all Woodmen, as follows: R. N. Goncalves, George Wolke, Frank Vieira, Ben Holkenbrink, Thomas Bento and Joaquin Decastos.

## HUSSEY.

The funeral of Harry Hussey was conducted from the residence of his father-in-law, A. W. Arenz, 427 East College avenue, Wednesday morning at 10 o'clock, in charge of Rev. Newton Rutledge, chaplain of Chester penitentiary. A quartet composed of Mrs. Glossup, Mrs. Snerly, T. B. Rapp and Dr. M. H. Goodrick, sang a number of sacred selections, appropriate to the occasion.

## KROUCH.

The funeral of Mrs. Minnie Krouch was held at the home of her mother, Mrs. Mary J. Wyatt at 1025

Beesley avenue, Tuesday morning, in charge of Rev. W. H. Wilder. Mrs. English, Miss Larimore, W. H. Wilder and W. W. Gilliam were the singers.

At the conclusion of the services the remains were interred in Jacksonville cemetery.

Those present from out of the city were: Frank Wyatt, a half brother of Beesley; a sister, Mrs. E. C. Tutbill, and son Walter, of Peru, Ind.; Mrs. Newton Tribble, of Barry; Mrs. Lena Calloun, of Chicago. One sister who lives in Iowa was unable to get here in time for the funeral.

## WILSON.

The funeral of Mrs. Elizabeth C. Wilson was conducted from the residence of S. B. Gray on West College avenue Wednesday morning at 10:30 o'clock, Rev. W. H. Wilder officiating. Music was furnished by Mrs. N. English, Miss Myrtle Larimore, Tilford Waters and W. H. Wilder, and the flowers were under the care of Mrs. Jackson, Mrs. Finley and Mrs. Kitchner.

At the conclusion of the services the remains were laid to rest in Diamond Grove cemetery. The bearers were: Joseph Wells, John D. Adams, Rev. L. B. Kent, A. H. Finley, Dr. E. Duncan and S. H. Larimore.

## SERIOUSLY ILL.

Mrs. Lulu Dayton and children and Harry Gordon came up from St. Louis Tuesday evening, being called here by the serious illness of Hon. John Gordon.

## DON'T YOU SMOKE?

Armstrong Recommends Chicos the Cigar That Pleases.

Nothing gives a smoker more pleasure than a good cigar, such as Wadsworth Bros. Chico, that Armstrong is recommending so strongly.

Armstrong says that he has never before had a cigar win so many friends amongst smokers that like a good cigar. While the Chico costs 5c, yet it is made from the same quality of tobacco, with a long Havana filler, as any 10c cigar on the market. It comes direct to them from the manufacturers, thus saving all jobbers' profits. Armstrong wants all lovers of a good smoke to try the Chicos. Begin smoking them to day.

Suggestions to Purchasers  
Of Refrigerators.

In buying a refrigerator, keep the following points in view, every one of which is a prominent feature of every one sold by us.

The preservation of perishable food is the first and most vital point. To obtain this end requires a low temperature and absolutely dry air. These conditions can only be attained by a perfect circulation of air in the refrigerator.

The second vital point in a refrigerator is an economical use of ice. The economical use of ice is of the greatest importance. A good refrigerator will last a lifetime, and how many times its first cost must be expended in ice during that time, and what a saving can be made by having a refrigerator which is an ice saver and not an ice waster. To attain this end the refrigerator must be well made of kiln dried lumber. It must have in addition a lining of non-conducting mineral wool sheathing, which is airtight and odorless. It must be provided with a drip pipe and trap, so as to exclude the outside air from the ice and allow the drip from the melting ice free exit.

We have received our new line of refrigerators and have them ranging in price from \$8 up to \$40.

## HOME FROM SOUTH

Mr. Ensley Moore has Returned From Visit to Moorhead, Miss., Where His Son is Located—Wood S. Terry Serving as Alderman of Town.

Ensley Moore returned Tuesday evening from Mississippi where he visited his son, Wm. Walter Moore, at Moorhead. This is growing to be an important place, at the crossing of the Southern railway and the Yazoo & Mississippi Valley railroad. The town has a large cotton mill, and a cotton seed oil mill. There is also a large amount of timber being cut in the adjoining woods, and a good part of the visitors are timber buyers or "inspectors" from north and south.

Moorhead is in Sunflower county, and is about 130 miles south and east of Memphis. All that region in a railway line is dominated by the Illinois Central and the Southern. The voting population of Moorhead is small owing to its being confined to the whites, but white and colored make up a population of about 800 persons. There is a college for colored girls conducted by Miss Emerson, which seems to be doing a good work, teaching manual as well as intellectual development. Most of the buildings are of frame, but there are several good brick store buildings, including a bank, and the cotton mill is of brick.

Walter Moore is secretary and treasurer of the O. K. Lumber Co. Wood S. Terry is also residing at Moorhead, and is one of the city fathers, having been elected alderman last fall. In order to get pure water, as this place is in the famous rich soil tract known as the Yazoo delta, and is very level and lies low, artesian wells are sunk to a depth of a thousand feet or more, and good water thus obtained.

The town or city of Moorhead is growing fast and houses can not be built as fast as they are needed, so this southern town is like a western one in lack of accommodations for its population, and in the number of new and modern style houses. Among the latter are several handsome residences. There is a well kept hotel and perhaps two of them. The town is surrounded by bayous, which instead of being an injury are an advantage in the matter of drainage.

## NOTES FOR FANS

Belt's Men Nearly All at Work—Practice Game To Day at West Side Park—League Notes.

All of Belt's ball players except Allen, of Peoria, who failed to get his ticket, have arrived in the city, and he is expected to day. An interested crowd of spectators watch the men at practice each day at West Side park, and speculation as to the relative merits of the individual members of the squad are already being indulged in to a considerable extent. Of course the pitchers have done nothing except warm up a bit, but others have already established themselves in the hearts of the fans. Hughes, the late first baseman, seems to be a prime favorite, and is all that his friends claim him to be. He was out for the first time yesterday and showed so well, as did also McHorn, who was tried at second. Brady attracted attention in the outfield, Livingston looks good in the grass, and Lotshaw, change-catcher and outfielder, appears to be a level headed man. Canthorn at third is also well spoken of.

Pitchers here are Coombs, Lindley, Cunningham, McKean, Baker, Large and Fox. They will be given a showing to day in a practice game between teams chosen from the squad. Neal is one of the new infielders. Berte is still sick and unable to report for practice, but is expected out soon.

Before the team goes to Keokuk for their games Saturday and Sunday, Belt will probably release several men, as he expects to take only about fourteen with him. He said last evening that everything looked good, and he is well satisfied with the prospects for the team.

After all the strong talk that Pap Farnbaker has been making about the Cairo team, that aggregation went up against Memphis and was trimmed to a fare-you-well. One thousand per cent fielders and 350 per cent hitters do great stunts about the corner grocery store in the winter and early spring, but when it comes to doing the real thing in a pinch, when to do it means to win and to not do it means to lose, well, a whole lot of them fail to deliver the goods. All the newspaper josh and jolly that affords amusement for the fans and puffs up some players like pouter pigeons, does not make players. It is the grueling game where every little point counts, that the players show whether or not they are the goods. Warming up field work affords little opportunity for getting a real line on players.—Mattoon Journal-Gazette.

In Angelo, Marre; Cairo has a captain that is as deliberate as a chess player. There is a mental diagram that goes with everything he does, and if scientific work has the bulge on plain straight-away baseball, then Angelo Angelo can sit in the high chair and feed crumbs to the others. He can get results that go to make up the joy and the bank rolls in this vale of going to bed and getting up again.—Cairo Bulletin.

## In Society.

Announcement was made at a tea given Wednesday afternoon at the home of Mrs. W. H. King of the engagement of her daughter, Miss Abigail Louise King, to Mr. Horace Herbert Bancroft, Mrs. Ridgely Hudson, of Springfield, had been invited as the guest of honor for this occasion, but a very recent death in her family prevented her being present.

The guest list was limited to fifteen, who were invited for 5 o'clock. Spring flowers were used exclusively in the decorations, the color scheme being yellow.

Miss King expects to spend the summer in Europe and the wedding will take place upon her return in the fall.

Cards have been issued announcing the approaching marriage of Hilliard H. Funk, of Waverly, to Miss Leila VanWinkle, of Sangamon county, to take place Thursday, April 19, at the home of the bride, two and one-half miles east of Waverly. They will be at home after May 10, on a farm four miles east of Waverly.

Mr. and Mrs. Homer Harrison entertained a number of friends Wednesday evening at their home east of the city, the occasion being Mrs. Harrison's birthday. The evening proved to be a most enjoyable one for all. The time was taken up with games of various kinds, while music also added much to the pleasure of the evening. Delicious refreshments were served and at a late hour the guests departed wishing their hosts many more such happy occasions.

The Pleasant Hour club was entertained Tuesday by Mrs. Charles Rufferty of East North street. An elaborate luncheon was served at noon, and a very pleasant time was enjoyed by all.

## COLD AIR FOR HEALTHY PEOPLE.

American Medicine: Warm sleeping rooms are strictly modern inventions, and pneumonia as a serious menace to life is also a comparatively recent affair. It is time, then, to inquire if our overwarmed houses have any relation to the appalling increase of pneumonia. Does not this continual tropic house warmth actually reduce the tone of the tissues and make them more susceptible to bacterial invasion? Foreigners bitterly complain of the heat of our houses, and Americans abroad have equal objections to the coldness of foreign houses—keenly suffering in a Parisian hotel, for instance, which is perfectly comfortable to the native. In Japan it is the same, Americans apparently being unable to live in the paper houses of the natives, who are comfortable, even when huddled around a few coals of fire.

Perhaps the type of men in northern Europe, through ages of exposure to cold, have actually developed a physique which is not only injured to cold, but actually functions better in cold air than in hot. They are surely healthy and strong now and do not suffer in the least from the cold. We rather look upon hot weather as relaxing and destructive to vitality and expect health with the return of cold weather. Brook trout perish if the water they breathe is raised only a few degrees in temperature.

There is enough in this matter to cause us to think about it a little. If so many cured tuberculosis patients are now sleeping in cold air every night and living in it in the day time too, as much as possible, perhaps the rest of us are only injuring ourselves by the opposite course. Only a few years ago the cold air fiend, who slept with windows wide open in the coldest winter, was considered a crank. Perhaps he will prove to have been the only sensible one among us, and was merely imitating the ways of his ancestors who had practically no way of warming their houses.

## WORK PROGRESSING.

The work on the new Christian church is being rapidly pushed to completion. The painters, frescoers and cement layers are finishing their labors. The pews arrived yesterday, and the carpets are expected this week. All will be in readiness for dedication on Sunday, April 29.

## MONTGOMERY & DEPPE

## THE MAJESTIC

is made of the same material as the Locomotive

The boiler jacket of a locomotive—exposed to wear, weather and heat—is made of sheet iron, because for such purposes sheet iron is more durable than steel. The Majestic Range is made of sheet iron—not steel—for exactly the same reason.

It is a long step from locomotives to the range in your kitchen, but the material of which your range is made is of vital importance in your household economy—less repairs.

Sheet iron costs twice as much as sheet steel, but steel will rust, and cracks in your cooking apparatus means loss of heat, waste of fuel, and in a few years the range is ready for the junk heap.

In the body of all Majestic Ranges we now use Majestic Old Style Charcoal Iron. The top and framework are made of Majestic Malleable Iron—the iron that never breaks, cracks or warps, and is so thin that you can do all your cooking without removing the lids.

The locomotive is compelled to stand up under severe tests—good looks will not draw a train of cars. A range built to endure and stand every test is the most economical range that you can buy, and that range is

Another Big Firm Closes Its Doors.

A shortage in the business is said to be the cause of a great many firms, parties, ships and small concerns going out of business, and the above headline is one we read every day. If you are going to have your books examined by a competent party you would be surprised to find the state of your business. Often an examination and reconstruction of a set of books save a man from ruin.

Let us quote you terms and show you how others have saved themselves and made it dollars.

## RAILROAD NEWS NOTES

Alton-Burlington Tracks Will Have New Connection Made—Changes in Wabash Private Cars—Baggageman Injured—Shop Notes.

President J. K. Delano's private car, "Wabash," which went into the Decatur shops last week, will come out in a few days the "Chicago," and thus vanishes another mark of the old regime. This car was built especially for President Ramsey and is the newest and handsomest private car on the Wabash system. It not only changes its name but also its complexion from the old Wabash brown to the new greenish brown, and it is one of the few cars on which the gold ornamentation did not give way to the Quaker plainness of the standard passenger equipment.

The "Missouri," which is the general superintendent's car, will come into the shops to be touched up in a few days and in the process its name will be changed to the "Kansas City." The old "Wabash," which was Mr. Ramsey's car before the new "Wabash" was built and afterward was known as "Wabash No. 2," is now General Manager Miller's car and its name has already been changed to "St. Louis."

There are two other private cars on the Wabash, President Ashley's old car, the "Illinois," and a private car obtained by the purchase of the Omaha line. These cars are but little used.

The Alton yesterday sent two heavy stock trains through the city enroute to Chicago. It required two engines for each train.

The work of connecting the Alton and Burlington tracks near the College avenue crossing will be done in a day or so. As soon as this is done the Burlington will begin the work of raising the Alton tracks, which will take some time. The work of putting in the subway at College avenue will then be pushed forward as rapidly as possible.

J. K. Howard, engineer maintenance of way for the C. P. & St. L., was a Wednesday caller in the city.

C. W. Ling, division superintendent of the Burlington, was in the city yesterday enroute to Centralia where he will spend several days on company business.

M. J. Corcoran, traveling passenger agent for the Grand Trunk railway, with headquarters in Chicago, spent Wednesday in the city.

Train Baggageman Rogers, running on Wabash passenger No. 23 and 24, had the misfortune to seriously injure his hand Tuesday while on duty. He was raising his safe off the floor to place something under it when he let it fall on his hand. The result was that his hand was seriously mashed and it was necessary to take him to the Wabash hospital in Decatur. The injury will keep him from work for some time.

SHOP NOTES.

A. F. Boyer, of the carpenter gang, has given up his position at the shops.

Frank Baker, of the blacksmith shop, has given up his position to play ball with the Jacksonville team. His place at the shops is taken by Earl Carlile.

Fred Shelbourne, of the blacksmith shop, was off yesterday. Frank Arenz, of the machine shop, will be kept from duty several days on account of a mashed thumb which he received yesterday.

On account of the Presbyterian church in the U. S. A. general assembly the Chicago & Alton railway will sell round trip tickets to Des Moines, Iowa at a very low rate of \$9.95 for round trip, tickets on sale May 14, 15, 16, 17, 21, 23. Good to return up to May 31. For further information call on or address agent Chicago & Alton railway. H. E. Paul.

MR. RACE REPLIES.

A day or two since there was an article in the Courier severely criticizing Mr. Race, contractor for excavating for the new building to be erected west of the Y. M. C. A., for abusing a team engaged in hauling dirt from the excavation. Mr. Race says the trouble was that the teamster he had employed was not fit for the place and it was not an extra load but bad management of the horses that caused the trouble. A team working properly pulled the wagon out of the cellar without any difficulty. Mr. Race says he discharged the man as soon as he found out how he was treating the horses for he says he is not the man to abuse a dumb animal and never had done so. The team in question he says he bought some months ago when both horses were in wretched condition and he has fed them up and gotten them into good shape by plenty of feed and kind treatment and he will keep it up.

## Now Is the Time

This is the Season of the Year when Catarrh Cannot be Neglected Without Running Dangerous Chances.

Have you inherited weak lungs? Have members of your family died from consumption? Will you go the same way?

DR. C. M. COEN.

despondent—dull, grinding or sharp, nausea after eating—shortness of breath—and bitter fluid rising in throat.

CATARRH OF THE LIVER AND KIDNEYS—Skin drawn and yellow—black specks floating on field of vision—weak and dizzy—dull pain in small of back—and constant desire to urinate.

CATARRH OF THE BLADDER—Sharp pains in the lower abdomen and a loss of control over urine—constant desire to urinate—burning sensation when urinating—face drawn and pallid—eyes dull—palms of hands and feet damp and clammy.

PELVIC CATARRH—Constant leucorrhoea—dragging pain in the back and hips, abdomen and thighs—stomach disturbance—skin eruptions—sick headache—female irregularities—and constipation.

Are you sick, weak and discouraged? Are you suffering from the ravages of disease? Are you reaping the result of neglect or early indiscretion?

Will you continue to suffer? You need not unless you delay too long in seeking a cure.

My method is peculiarly adapted to the following diseases: Catarrh, Brouchitis and Lung Diseases, Rheumatism, Neuralgia, Diseases of the Blood and Skin, Diseases of the Stomach, Liver, Kidneys and Bowels, and all the private diseases of men and women.

Have you a disease of any kind that has proven incurable by the ordinary methods of treatment?

Have you any lingering troublesome conditions that annoy you?

Have you any condition that if neglected will lead to serious and probably fatal results?

If so come to me for consultation and advice. If I find your case incurable I will frankly tell you the facts as I believe them. If you are curable I will gladly advise you free of all charge. Should you desire treatment my terms are no more than you would be willing to pay for a perfect cure.

EXAMINATION FREE TO ALL.

Hours—9 to 12 mornings; 2 to 5 afternoons; 7 to 8 evenings.

### MORGAN COUNTY W. C. T. U.

Tuesday evening witnessed the closing session of a very successful institute held by the Morgan county W. C. T. U. at Mercedosa. The institute held sessions Monday and Tuesday, and Monday night a gold medal contest was held, the medal being won by Miss Stella Rodgers, of Waverly, who gave a selection from Macbeth, "In Firm of Purpose, Give Me the Daggers." There were seven contestants. Wednesday morning a meeting of the executive committee was held for the transaction of the usual business.

The attendance at the sessions of the institute was excellent, and a large audience heard the medal contest. It was so greatly appreciated that upon request of many it was repeated Tuesday evening.

### HIGH SCHOOL

#### PREPARING

To Do Big Things in Athletics This Spring—Will Participate in Decatur and Western Illinois Meets—Train on Illinois College Campus.

Matters athletic are humming at the high school and preparations are being made to send a strong track team to participate in the high school meet to be held in Decatur April 21, in which sixteen schools will take part. The representatives of the local school will probably be about as follows: 100 yard dash, R. Wait; 220, R. Hellenthal; 220 hurdles, Wait; 440, Robert Reid; one-half mile, J. Johnson; mile relay, Wait, Reid, Johnson and McKinney; running broad jump, Wait; running high jump, N. Maddox; shot put, Hellenthal; discus, G. McKean; pole vault, John Fortis.

The annual meet of the Western Illinois High School league will be held on the college campus the first Friday in May, and the local boys expect to carry off the pennant. Petersburg won last year, and Rushville was second, but it is thought that the points will be differently distributed this time, as the chief point winners, Sampson, the weight man of Petersburg, and Owens, Rushville's sprinter, are now out of school, and so far as is known, nobody to fill their places has been discovered. The local high school will train on the college grounds.

### EASTER BAZAAR.

An Easter bazaar for the purpose of raising money for a new piano for the school building was held at the Fourth ward school house Wednesday afternoon from 3 to 5 o'clock. A goodly number of neighbors and friends of the school attended during these hours and a large number of articles placed on sale were sold. Tables containing calendars, fancy work, aprons, dust caps and the like were placed in the halls upstairs, while peanut and popcorn stands were placed downstairs and were well patronized. While not all of the articles were sold a neat sum was realized and it is the intention to dispose of what is left as soon as possible.

A number of the teachers acted as clerks and all of the articles placed on sale were made and donated by the teachers and pupils. The older pupils of the higher grades acted as ushers during the afternoon.

Only 3 days until Easter. Better hurry and order that suit from the Jacksonville Tailoring company. \$15 and up.

## RECALL PRIMARIES AND CONVENTION

Action Taken by Democratic Central Committee—Opinion Expressed by Chairman of Republican Committee—Scott County May Go Ahead Under Crawford Law.

Members of the Morgan county Democratic county central committee held a meeting in the circuit court room Wednesday afternoon and voted to recall the primaries set for April 14 and 23, and convention set for May 2. The action was taken as a result of the decision of the supreme court which declared that the primary law was unconstitutional.

Daniel Bahat presided as chairman of the meeting, which was also attended by the various Democratic candidates, and Haller Higgins was the secretary. The action was generally concurred in by the members of the committee present and met the approval of the candidates. The glad hand was extended by the latter in generous fashion and if any of the committeemen did not think they were the stuff in their precinct before the meeting they received several assurances from the boys that they were all right and could if they only would wield the power of control, primary law or no primary law.

It was a harmonious gathering on the surface but there was an undercurrent that showed the machine and anti-machine forces of Democracy were ready for a real test of strength at the forthcoming primary whenever the time arrives. Many of the Democratic candidates did not relish the idea of postponement as the campaign for nomination has already been long drawn out, nevertheless they could see no better solution of the difficulty than the action taken.

Mayor John R. Davis, chairman of the Republican county central committee was interviewed regarding the probable action of the Republican committee and stated that he would probably call the committee together soon and that he was in favor of following the suggestion of the state central committee which recommended the calling off of all primaries and conventions until the legislature has passed a primary law or until circumstances, not at present anticipated, arise.

Editor Nelson, of the Winchester Times, was in the city Wednesday to see what action the Morgan county Democratic committee would take on the primary matter. He reported that the Scott county Democratic committee had decided to go ahead under the Crawford law. It is believed, however, that Scott county will rescind this action since the action of Morgan county Democrats yesterday. There seems to be every probability that the legislature if it passes a new primary law will make it compulsory upon all parties to have their candidates nominated under this law if their names are printed on the official ballot. Any party that goes ahead and makes nominations may be compelled to hold two primaries which would likely cause a good deal of confusion.
